SD Learner

Is My Child a Right Brain Visual Spatial Learner?

© 2024

Does the student: YES NO 1. Think mainly in pictures instead of words?				
2. Know many things without being able to explain how and why? 3. Solve problems in unusual ways? 4. Have a vivid imagination? 5. Remember what they have seen & forget what they have heard? 6. Struggle with spelling? (Even if they did well on spelling tests) 7. Visualize objects from different perspective? 8. Struggle with organization? 9. Often lose track of time? 10. Prefer to read a map rather than following verbal directions? 11. Often remember how to get to places they only visited once? 12. Have handwriting that is difficult for others to read? 13. Feel what others are feeling? 14. Have musical, artistic or mechanical skills? 15. Know more than others give them credit for? 16. Hate speaking in front of groups? 17. Feel smarter as they get older?		Does the student:	YES	NO
3. Solve problems in unusual ways? 4. Have a vivid imagination? 5. Remember what they have seen & forget what they have heard? 6. Struggle with spelling? (Even if they did well on spelling tests) 7.
